

Armoured Watch Tower - Kit

This resin kit contains 14 detailed parts including a removable top to fit a standard 25mm based standard unit inside the cabin. Also included is a removable 60mm custom base when fitting-in our wall sections making the Tower part of the same fortified structure. highly requested item by the toughest war-gamers which have described it as 'indispensable' in a battlefield, giving you a much wanted Higher Ground Clearance and Line Of Sight advantage against not only regular units but and especially when trying to reach the much larger/taller enemy units! It's fully compatible with our Armoured Wall set : by removing the round base (slots in and out) this structure can be just as easily integrated to the Wall sections and become part of a much larger structure, then place it next to our Armoured Bunker and you'll have an impressive line of defence against any invading enemy forces! With plenty of detail to dry-brush you will also have plenty of room available to add your personal detail and make it of your own unique army or battlefield design : decals, skulls, banners,...and whatever else your mind can think of.

Please Note: The toy soldiers displayed in the above photos are NOT in any way RC Studio property NOR copyright and it's shown only for proportional purposes.
