

Communication Array kit

This resin kit contains 10 detailed parts including a removable mast to allow at least two basic configurations : long-bow and short-bow. Also will allow the placement of the DISH onto other buildings (e.g. top of a bunker or watch tower) through the future release of many dedicated add-ons. Highly recommended item for all your sceneries and games : use it to boost the visuals of your terrains and/or to add a pinch of salt to your games by using it as a stratagem to seize or a target to destroy! With plenty of detail to dry-brush you will also have plenty of room available to add your personal detail and make it of your own unique army or battlefield design : decals, skulls, banners,...and whatever else your mind can think of.

Please Note: The toy soldiers displayed in the above photos are NOT in any way RC Studio property NOR copyright and it's shown only for proportional purposes.
